

Capstone Project 1

Front-end Web
Development

Requirements

- Own website concept/theme
- At least 4 pages (Home page + 3 subpages)
- Should contain:
 - Header/banner - brand identity
 - Navigation
 - Content
 - Footer
- Responsive design

Tips

1. Observe proper HTML and CSS mark-up
2. Be creative. First impression matters.
3. Give the site some personality.
4. Content is king. All titles, headings and subheadings should not be placeholder text.
5. Optimize your files. Aim for a website that loads quickly.
